The turn-over for 2003 was USD \$ 5.00 Millions.

Firstworld Buying Division How we execute orders :-

First of all we reply any fax/e-mail at the same day!!! Please find below how we communicate with our buyers upon receipt on inquires:

- » We work out price with factories then we confirm the price to our buyer as quickly as possible.
- » After Price and delivery is set we request buyers to issue PO sheet with full order details.
- » After we receive and review the PO sheet we request buyer to open the Master L/C.
- » Upon receipt of Master L/C we transfer it to the factory (Maker).
- » After transferring the Master L/C to the maker we push them to open the Back to Back L/C for fabrics and Accessories soonest possible.
- » We always follow up closely with fabrics and accessories supplier to ship/deliver the fabrics and accessories on time.
- » Meantime we take all necessary approval on FAB/ACC/GMT sample from our buyer.
- » When factory receive all the fabrics and accessories in hand we used to get FTY to make pre-production/ size set sample for our approval to start production.
- » When production starts our QA people go for inline inspection (See sep point for inspection procedure).
- » When our QA finds everything okay in inline inspection then they give instruction to the factory people to go ahead for bulk production.
- » After final inspection we ship the goods.
- » We follow up cargo stuffing, vessel booking, ETD, ETA and update buyer accordingly.

- After shipping the goods we push our maker to prepare the shipping DOCS without delay and submit to their bank so that buyer receive the documents on time and prepare clearing formalities at their end.
- Above all we used to have everyday fax/e-mail communication with our buyers. The above are the steps we used to follow for each and every order. We appreciate your suggestion if you have anything more.

How Firstworld Buying Division control quality & our inspection procedure .

We normally follow AQL 4.00 inspection method, but on special cases we follow AQL 2.5 :

- At first we hand over the order to two of our merchandiser and two QA people. These teams are responsible for this order. Every morning they discuss the whole status in the daily meeting with our CEO General Manger, Merchandising.
- Factory make the sample per final changes and comments from the buyer on the products. Our QA and merchandiser study together with approved FIT samples and the comments form buyer.
- After receive the fabrics and accessories in factory, one of the QA and merchandiser concerning that particular order stay in the Factory from morning to evening (Production time) until final inspection/ shipment.
- We always make a pre production meeting before we go into production. Our merchandiser and QA Inspector go to the factory at the time of pre production meeting, check the sample, pattern and final comments from buyer and if they are satisfied then they give instruction to the factory people for a trial production.
- QA Inspector evaluate trial production and then approve for bulk production. As soon as bulk production is started our QA inspector goes for inline inspection. Initially everyday, then every alternate day, depends on the situation of the FTY/production.
- In the middle stage of production if dupro rating (standard of quality) result is acceptable/good then we go for pre-final inspection. Here we check the case pack, carton quality, shipping mark, assortment, presentation etc.
- After pre-final result is acceptable we go for final inspection and if it pass we approve shipment.

This is how normally we do. Please advise if you have any suggestion or any special requirement.

We have vast experience in the production of the following: -

1. Jackets / Parkas.
2. Sweaters.
3. Denim.
4. Knitwear's.
5. Children wears /Baby wears.
6. Sports wears.
7. Undergarments. / Nightgown, Shirt/Blouse/Dress, Tarry towels / Toweling Bathrobe.
8. A-shirt.
